Mr. King,

Please find enclosed a check for \$20.00 for the dvd. I found your daughter's blog only last night and I will put the link out in my "network".

Please send the dvd to:

I grew up in Southfield in the 70's. This case was/is the first major imprint of my childhood and has always been in the back of my mind so to speak throughout my life.

By way of a personal related anecdote: a woman very close to me was the daughter of a GM executive who served that company at the same time Busch's father was there. She was sexually abused as a child by her father (and several of his 'professional associates') throughout the mid-to-late 1970's.

In the late 90's we engaged a private investigator to help prepare a legal case against her father and these monsters, and among the investigator's conclusions was the theory that there existed an organized "ring" of pedophiles within GM's Executive Management at the time – and that 'offering up' a child was a kind of ticket into the upper ranks of management. By the way, the investigator (who was from the West Coast) met with a certain degree of cooperation from local law enforcement, but was told time and time again "Don't waste your time, the case won't go anywhere".

Alas, time and money were not on our side. We were not able to pursue the case, and the woman's father left the state, took ill, and died before I could question him myself in a more "direct" manner.

I had never heard of Busch until the media came out with that story a few years ago. When I heard the details: GM Executive, organized ring of sexual abuse, etc., my blood ran cold.

May G-d give you strength to continue fighting the good fight. Thank you.

Sincerely,
